

Ranju Joshi Kunkaliker
Associate Professor & Coordinator IGNCU study centre,
Goa College of Home Science, Campal,
Panaji, Goa 403001. India

I am pleased to recommend **Ms Anjali Devi**, a brilliant and dedicated student who has recently completed her Bachelor of Science in Home Science with specialization in Food Nutrition and Dietetics from Goa College of Home Science affiliated to Goa University. I have had the privilege of teaching, guiding, and mentoring Anjali during her undergraduate studies.

I have taught Anjali, Nutritional Biochemistry, Food Science and Facilities and Service Management (As an elective). As part of the course of study in Food Science and Facilities and Service Management, she has studied Food Laws and Quality Assurance and Hygiene practices - Hazard Analysis and Critical Control Point

Her performance in these subjects was excellent. Anjali presented an outstanding seminar on the topic "Gene Therapy" in the subject Nutritional Biochemistry. One of Anjali's most notable achievements in the subject Food Science was the development of a novel food product, "Zesty Bite." This healthy snack, was made with moringa leaves, moong dal flour, and wheat flour, demonstrated her creativity, resourcefulness, and expertise in food product development

Anjali's strengths include:

1. Excellent academic record
2. Works with dedication and is prompt in completing her work.
3. Innovative thinking and problem-solving skills
4. Excellent communication and presentation skills
5. Passion for Food Science and food safety

I firmly believe that Anjali possesses the skills, knowledge, and dedication required to excel in higher studies in the field of Food science or Sustainable Food Safety Management. Her enthusiasm, positive attitude, and teamwork skills make her an asset to any academic or professional community.

I hereby recommend Ms. **Anjali Devi**, for the program at your esteemed university and I wish her all the best for her future endeavours.

Mrs. Ranju Kunkaliker
